PROFESSIONAL SUMMARY

Frontend Engineer with 2+ years of experience designing and developing scalable React.js applications for enterprise dashboards and workflow management systems. Proficient in JavaScript (ES6+), React Hooks, Redux, HTML5, CSS3, and REST API integration. In addition to my professional frontend experience, I have hands-on MERN stack experience through building full-stack applications using Node.js, Express.js, MongoDB, and JWT Authentication.

EXPERIENCE

LMG8 Tech

Bengaluru, Karnataka

Software Development Engineer I – Frontend

Jul 2024 – Apr 2026

- Built and maintained multiple production React.js applications powering enterprise dashboards and internal workflow systems.
- Developed a reusable React component library using React Hooks and Context API, improving development efficiency and ensuring UI consistency across multiple applications.
- Implemented end-to-end bulk Excel upload with validation, version tracking, and audit history logging, replacing a fully manual data-entry process.
- Integrated REST APIs and developed responsive, data-driven UI components for enterprise dashboard applications.

LMG8 Tech

Bengaluru, Karnataka

Software Development Engineer – Frontend Intern (Full-Time)

Feb 2024 – Jun 2024

- Contributed to production React.js applications by developing UI components and internal dashboard features.
- Integrated REST APIs and resolved multiple production bugs identified during senior developer code reviews.
- Reduced unnecessary component re-renders using optimized state management and memoization techniques.

SKILLS

Frontend: React.js, JavaScript (ES6+), Redux, Context API, React Hooks, HTML5, CSS3, Tailwind CSS, Material UI (MUI), Responsive Design

Backend: Node.js, Express.js, MongoDB, JWT Authentication

Concepts: REST APIs, State Management, Component Architecture, Asynchronous Programming, Performance Optimization, Debugging, Agile/Scrum

Tools: Git, GitHub, Postman, VS Code, Axios

PROJECTS

MERN Stack Procurement System – Atkins Réalis | ReactJS, NodeJS, ExpressJS, MongoDB

- Built a full-stack procurement system with role-based access control (RBAC) and multi-stage approval workflows, managing end-to-end request lifecycle from creation to approval and tracking.
- Developed REST APIs using Node.js and Express.js and dashboards to monitor request status, approval stages, and operational metrics.

Myhraki – E-commerce Platform | ReactJS, JavaScript, CSS

- Developed a responsive e-commerce platform with seller dashboards, product management, and logistics tracking.
- Improved UI performance through efficient state management and reusable React components.

LMG8 Company Website | ReactJS, JavaScript, CSS

- Built and maintained the company's public website (lmg8.tech) showcasing client projects, services, and company information.
- Developed responsive, reusable React components to present project listings and client work in a consistent, maintainable layout.

EDUCATION

Bachelor of Engineering in Electronics and Communication Engineering

2023

SDM Institute of Technology, Karnataka

CERTIFICATION

Generative AI Fundamentals – Google Cloud (Udacity)

2026

Java Full Stack Development – JSpiders

2023 – 2024
