PROFESSIONAL SUMMARY

Frontend Developer with 2 years of experience building scalable React.js applications, enterprise dashboards, and workflow management systems. Skilled in JavaScript (ES6+), React Hooks, Redux, Context API, REST API integration, responsive UI development, and performance optimization. Experienced collaborating in Agile development environments using Git-based workflows. Currently expanding into full-stack MERN development with hands-on experience in Node.js, Express.js, MongoDB, and JWT Authentication.

EXPERIENCE

LMG8 Tech

Bengaluru, Karnataka

Software Development Engineer I – Frontend (Frontend Engineer)

Jul 2024 – Apr 2026

- Built and maintained scalable React.js applications for dashboards and workflow systems used in internal business operations.
- Designed reusable React components using hooks, improving maintainability and development speed.
- Implemented features such as bulk Excel upload, validation, version tracking, and audit history logging for enterprise workflows.
- Integrated REST APIs with optimized state management, ensuring smooth data flow and improved UI performance.
- Collaborated with backend teams to integrate REST APIs and deliver scalable, production-ready UI modules.
- Delivered production-ready features for enterprise dashboards used in internal business workflows.

LMG8 Tech

Bengaluru, Karnataka

Software Development Engineer – Frontend Intern (Full-Time)

Feb 2024 – Jun 2024

- Contributed to production React.js applications by developing UI components and internal dashboard features.
- Integrated REST APIs and resolved production bugs under senior developer reviews.
- Enhanced UI components and improved usability for internal business tools.
- Improved UI performance by reducing unnecessary re-renders using optimized state management and memoization.

SKILLS

Frontend: React.js, JavaScript (ES6+), Redux, Context API, React Hooks, HTML5, CSS3, Tailwind CSS, Material UI (MUI), Responsive Design

Backend: Node.js, Express.js, MongoDB, JWT Authentication

Concepts: REST API Integration, State Management, Component Architecture, Performance Optimization, Debugging, Agile/Scrum

Tools: Git, GitHub, Postman, VS Code, Axios

PROJECTS

MERN Stack Procurement System – Atkins Réalis | ReactJS, NodeJS, ExpressJS, MongoDB

- Built a full-stack procurement system with role-based access control (RBAC) and multi-stage approval workflows, managing end-to-end request lifecycle from creation to approval and tracking.
- Developed REST APIs using Node.js and Express.js to support procurement workflows and request status management.
- Developed dashboards to monitor request status, approval stages, and operational metrics.

Myhraki – E-commerce Platform | ReactJS, JavaScript, CSS

- Developed a responsive e-commerce platform with seller dashboards, product management, and logistics tracking.
- Improved UI performance through efficient state management and reusable React components.

LMG8 Feedback Web App | ReactJS, JavaScript, CSS

- Built an internal admin dashboard to manage projects, questionnaires, and client feedback workflows.
- Integrated REST APIs and implemented real-time response tracking and automated notifications.

EDUCATION

Bachelor of Engineering in Electronics and Communication Engineering

2023

SDM Institute of Technology, Karnataka

CERTIFICATION

Generative AI Fundamentals – Google Cloud (Udacity)

2026

Java Full Stack Development – JSpiders

2023 – 2024
